Saturday 10th August 131 Warnbody Ave
Coventry

Dear Phyllis,

At last I'm writing! I think first we ought to introduce ourselves - I'm a university lecturer (in chemistry) at the new University of Warwick in Coventry. Ann is a library assistant at a local public library. I'm 30, Ann's 28 (this sounds like an application for a job - I hope you don't mind!) We've been married 8 years although we've known each other ever since school. We have no children as yet. Your children sound wonderful - they certainly have fabulous first names!

We've been here for 3 years now - before that we had a year in the U.S. and several in Oxford. Our life is fairly calm and uneventful - we try to picture you and your family at home, especially after receiving one of your letters. I am getting a couple of prints made from slides of us taken on holiday - I'll send them

FIRST FOLD HERE

very shortly. Is there anything else I could send you or the kids from England? — you only have to let me know & I'll do my best.

We think about you a great deal. This is so much I'd like to say — but I suppose I'd better not?

Love from both of us to you and the children

Tom & Sue.
