Cape File

Dear Mr. Jordan,

Thank you very much for the suggestion that I should write to your father and get copies of the letters he and Hofmeyr exchanged with each other.

The actual topic you write about - that is, Hofmeyr's indecision about the leadership of the Party - is one of the important topics of the last chapters of the book, and has already been exhaustively treated. My plan is therefore to wait until I take the MS to Cape Town which will be during the month of April, and then to ask your father if he will allow me to see the letters and take from them anything which the biography does not yet contain.

Meanwhile thank you very much for writing to me.

Yours sincerely,
