Dear Peter

I expect our letters have crossed, but since replying to yours of 12 July I have heard from Anthony Barker that he has no copies of the addresses he was sent for the mailing.

I enclose the list of those attending as reported in the newspapers, which you could check against the invitees I sent you.

I will try to include some more addresses. — later!

All well here. I cannot really believe in these Namibia developments, can you?

Yours

Randolph
