Dear Mr. Glaser,

Thank you very much for your review, which arrived safely.

I hope you won't mind if it only comes out in the edition after the one which should be at the printers already, but isn't yet! This number is intended to discuss South Africa's international position at present, and most of the material will deal with that. The only exception will be tributes to Brian Bishop and Molly Blackburn. Your review would then appear in the one after that.

Yours sincerely,

P.M.Brown.

for REALITY BOARD.
