3200

Dear Peter,

Enclosed is an article for REALITY, and it is entitled, as you suggested, 'To talk language is to talk politics'.

I have also enclosed a copy of the advertisement for the Conference which appeared in the December issue of the English Academy Review. Would it be possible for you to print this advertisement as well ?

I had a remarkably peaceful and enjoyable four days in your cottage. That is really a special place. Lettie and Colleen got back without mishap, though they did encounter some tough-seeming baboons on the way to the waterfall that you suggested they visit.

Love to Phoebe.

Yours sincerely,

Michael
