House of Assembly,
P.O.Box 15,
Cape Town,
8000.

Dear Professor Olivier,

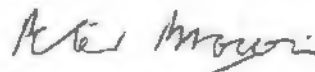

David Welsh has told me that you have kindly agreed to do an article for REALITY on the ending of Influx Control.

Could you tell us what you see as the immediate effects as well as the long-term implications, as well as discussing the fears many people have that all that will happen will be that laws on squatting, health etc., as well as the shortage of urban land for blacks, will mean that things won't really change very much?

The deadline for the issue in which we would like to publish the article is about July 25th. We will leave you to decide on the length but our articles are usually round about 3,000 words.

With best wishes and many thanks.

Yours sincerely,

P.M. Brown.

for REALITY.
