7, Constitution St.,
Grahamstown,
6140.

Dear Gavin,

REALITY has asked me to ask you if you would do an article which would be a general assessment of the SABC. How do you feel about that ?

The handling of the election would obviously be an important part of it but we thought a wider assessment, measured against systems in other countries, and the ideal system, would be very interesting. If you can do it could you manage the end of July as a deadline — length 2 to 3000 words ?

Any LDA progress ? We had a report back meeting here on Thursday by three people who had gone to Slabbert's conference. Very interesting but rather depressing. They didn't go as our representatives but we thought their impressions would be important to have.

I'm off to UK to visit a grandchild later today. Back on July 13th.

Regards,

REI
