Dear Gavin,

Thank you for the copies of CUE, which certainly was quite something.

But where is that nice article you were going to write about SABC/SATV's rating in the world media stakes? You remember you said you were going to discuss this with BBC and other people you were to meet in JHB and hoped to do something after that? Could you do it by the last week in September?

I also like your idea of an article on the Festival by August. Could you ask him if he would do one (up to about 3,000 words) by the same deadline?

Any progress with the Association?

Regards,

Alan
