Dear Mike,

Very many thanks for sending us the copy of your inaugural lecture.
Very good stuff.

The impact of the tables is enormous and I am wondering if you would let us use them in REALITY? The more people who get the chance to look at them the better.

The trouble is that if we did that I think they would require a short introduction by the author. How would he feel about that? Deadline end of March?

How are things down there post-O'Brien?

All the best.
