Dear Sirs:

In a recent issue you carried a very interesting story about the progress made in Botswana since independence. We in Hawaii have a special interest in Botswana because it is our antipode or opposite place on the globe. For that reason our state governor was the chief U.S. delegate to its independence ceremonies.

Unfortunatly for me the copy of REALITY that I was reading has been destroyed and I cannot find another in our state libraries.

I will be glad to pay whatever cost is involved to receive either a copy of the Botswana article or a copy of the full issue -- by airmail, please.

Very truly yours,
