17 April 1987

Dear Peter,

Here is an article which I have been working on for some time. Would it be of any use to you for REALITY. I wrote it with REALITY in mind, but it turned out to be rather longer than I had anticipated. I do think that Havel's ideas are extremely important and relevant to the current situation. If you cannot use it, would you post it back to me by sea mail.

Heaven knows when I shall get to SA again - at the moment a trip is quite beyond my means but I get so much SA news from papers and in letters that I certainly don't feel out of touch - and the arrival of a new number of Reality is always a very welcome event,

I am just off to the States to give some lectures. Absurd that it should be easier for me to get lectures there than it is over here, but that is how the world goes,

I often think of my friends in PMB and hope that one day I shall have the chance of seeing you all again.

Warm regards to you all
Yours
Robin
