Durban,
4000.

Dear Alison,

I must apologise for the fact that I am only now replying to your letter of December 9th and acknowledging receipt of the article which came with it.

I am afraid the clearing of the REALITY post box doesn't take place as often as it should over Christmas and the person who does it only gave your letter to me a few days ago.

The original article you talk about has never reached us. I wonder where it got to ?

I think we would like to use the present article, but would probably only be able to do so in May. The reason for this is that the January number is already at the printers and the March issue is going to be taken up entirely with a series of articles on Local Government.

Would you mind waiting until May, or would you rather send it to somebody else ? If you do decide to wait, it seems to me that there will have to be a further update nearer the time -- and don't you think the Witness deserves an honourable mention somewhere ?

Regards,

Alan Paton
