Dear Sir,

With reference to your application for the position of Social Worker at Edendale, the Y.M.C.A. Committee in charge of this work has decided to interview local applicants first.

The object is to avoid unnecessary travelling expenses and to make certain that applicants will not be asked to travel great distances, only to find they are not successful. It is also felt that people with local knowledge have an obvious advantage over those from far afield.

Interviews will take place early next week and your written applications will be submitted to the Committee. If there is no suitable applicant amongst the local people you may be asked to present yourself for interview at some mutually convenient date.

In any event you will be informed of the outcome of next week's interviews as soon as possible.

Yours faithfully,

CHAIRMAN.
