Dear Koko,

This is just to confirm our conversation of earlier today.

We would very much like you to microfilm our records as previously arranged, provided Wits is prepared to accept the conditions which were agreed to at that time and which were, as I understood them, as follows:-

- a) Two films will be made, one of which will go into the the Wits archives, the other will belong to us;
- b) The original material will remain in our possession;
- c) Access to the material in the Wits archives will be restricted. If anyone applies for access to the material the Wits Archivist should submit details of their application to me at the above address. I will then discuss the matter with other people who have an interest in the material and will pass on to the Wits archivist our decision on whether access should be granted.

I hope this arrangement will suit Wits. In the meantime we look forward to seeing you (all three of you!) when all this has been sorted out.

Regards,
