Mr. Dennis Brutus,
PORT ELIZABETH.

Dear Dennis,

Just to report that I have sent a message through about the tape. I think it should be possible to get it and to arrange for it to reach you safely.

I understand that it will be possible to make arrangements for the recording up there. My only doubt is about persuading our friend to sit down and do the job. He is notorious for putting things off. However, I have told my contact that the tape should be done next week at the latest.

I will start nosing around about possible posts up here. You know what the problems are for "agitators" though!

Regards,

W.C.
