23rd May, 1980.

Dear Peter,

Over a month since you wrote me, and I get a pain each time I see your unanswered letter - a genuine one. I have been thoroughly immersed in preparing for next weeks focus on banning and detention for the Civil Rights League. I trust you got a copy of the leaflet, for I certainly mailed one to Reality.

About "disingenuous" - thanks for your explanation. I also had a very nice letter from Canon Nicolson, whose explanation was identical. Yes, I can see how a lot of people would use that word in an opposite sense. How funny! I was glad that it was merely this kind of error. But actually I would disagree that David is "ingenuous" even some times. I've worked closely enough long enough to know he is not that. However ...  
Let us close this subject and thank you very much for the trouble you took over it.

About Cromwell. I think your idea an excellent one, but have not yet made time to list the local Libs. If you would draft a letter, I would send it out and people could send the money to me (what am I letting myself in for - cancel that - I will ask Maggie Rodger if she can handle this from the CRL). I would still offer to address your letters to people here. I am sure it does not need discussing with others, they'd all go along with it. I don't think I need more than a dozen letters. We Libs are getting thin on the ground. I have not made time either to visit Cromwell again, but this pain too is becoming too much, so doubtless I'll get down to Guguletu again soon.

Stay well.

Love,

Jet
