Dear Mike,

A belated letter of thanks for taking on the German lady -- and my apologies for inflicting her on you. I hope the whole thing wasn't too much of an imposition.

As I told you, we didn't use the Race Relations and Cape Times reports on the W. Cape upheaval in REALITY. I found it very difficult to get a clear picture of the sequence of events from the two reports and decided that it would be better to do nothing than make a cock-up. I see from this morning's paper that the turmoil continues.

I'll probably be down in your part of the world before the year ends. See you then, I hope.

Yours,

ACT
