Milton, 3245.

14th October, 1981.

Dear Dot,

Spurred to action by your letter I have at last got around to writing to George Rodger to ask him what the final result of the last appeal was, who gave to it, and whether he would be prepared to be the receiver if I wrote to last year's givers and asked them to do the same for this Christmas. I'll let you know what he says.

Your Crossroads contribution was just squeezed in to the November Reality in the form of an article. Laurine was supposed to send something on recent developments, but it never arrived, although she was supposed to have finished writing it. If she wants to respond to your points she could do it in that article if she does ever send it. The trouble is that, by early next year, the subject may not be very topical.... although not doubt it will be soon enough.

Alan has just phoned to say that he has just heard that Ruth Hayman has died -- and last night I heard that Ernie Wentzel's son had; either suicide or drugs, poor chap.

All for now.

Love,

*Alan*
