15th January, 1982.

Dear Peter,

Just to say I've been meeting with Agnes Nododile and helping her sort out problems like getting balance in savings a/c transferred in her name and a little money still due from Unemployment insurance fund. Amazing how much time and form filling is involved. However. She is a marvellous person - do you know she was born and brought up in Cape Town - her father had a little place in Bloem St. and she went to St. Paul's school for a short while. Then he bought a property in Goodwood. Ah the years of pre-group areas act! Her background is the reason she speaks English so beautifully (as well as two other languages).

I enclose some clippings about Charles Yeats. I thought you might be doing something in Reality about the issue. I wrote a long screed intending the Cape Times to publish it as a letter, but they (understandably) were not impressed because of its length, so did not publish. If you want to use it in any way for Reality, do so. You can chop it up as much as you like, or if no use at all, throw in wastepaper basket.

I had a letter from Anne Tobias asking me to give her love to Cromwell - she had heard from you that he might be dead. Now I'll have to let her know that he had already gone. I'll write her in a day or so.

Love,

Pet
