22nd September, 1987.

Dear Randolph,

The enclosed letter reached me from Terence a few days ago, I j  
having written to him about the Everatt paper. You will see that he doesn't  
regard it in quite the same light as we have done. I

I also had a letter from Everatt himself a few weeks ago, a copy  
of which I think he sent you. It sounds as if there will have been some modifi-  
cations by the time he presents the paper next month -- but I still think it  
would be a good thing if somebody was there to listen.

I will be in Johannesburg next week for a meeting about our  
thing to which I hope Peter Loveday will be able to come. I don't know anything  
about the IFC, but would certainly be interested in looking at the results of  
their researches.

I think IDASA has got quite good grassroots contacts but I am  
afraid it may have forfeited any prospects it might have had of playing a recon-  
ciling role in Black politics by becoming too closely associated with the UDF.

All for now.

Yours,
