Hi Randolph,

How are you-hope you and Gillian are fine.

A couple of weeks ago James sanders contacted me. For some strange reason I dont understand I found my self v reluctant to say much to him-tho he seemed quite pleasant and forthright.

He said he is on a project for the BBC onaa programme examing the nefarious activities of MI6 esp in relation to the apartheid regime.

Wanted to know whether MI^ may have provided finance to ARM to get info and to manipulate presumably. Since he had seen both you and de Crepigny I thought it strange that he did not seem to know anything about the money from Ghana. Was he being cute me me ie if you had mentioned Ghana to him or were you also reluctant to talk to him? Not a big matter but if he is kosher I will write and tell him about Ghana.

Well Mbeki and the ANC got the 66% they have been asking for. I dont like it in the hands of some of the more bloodthirsty of the ANC leaders-like Peter Mokoba. The SAIRR has just put out a booklet of rather skimpy bio. info on Mbeki but lots from his speeches over the years-also some from his CP years-quite fascinating.

All the best and warmest regards

Magnus
