Yes, you actually faxed me the Lang memo, an I'm afraid I haven't yet found time to go through it. When I do I'll tell you about anything I know about it in it. Apologies for not thanking you for this. I have been running up and down to London where I am off line and these things get forgotte.

I did get an email from you on 23 October in which (I now see) in a p.s. you asked for Eddie's address: It is: 519 Helderberg Village, Private Bag X12, Somerset West 7129, email ejdan@mweb.co.za, tel +2521 855 4999, fax 855 3741

I did see the M&G piece. Quite good, for the record. I didn't even spot the bloomer about 'eastern intelligence services' ...

Still wondering whether to try and write up the CCF/New African story. I'll discuss it with Streek in December, perhaps. It might be better to place it in a historical journal tho' they are read only by academics.

Was there or was there not a second article in noseweek? I'd be grateful if you could fax it to me if it did appear and you have it.
