Just back from a brief visit to SA - history conference (Huguenots) at Stellenbosch. The doctor was - as I assumed you'd long known - Toffee Katz, who got away to the US where he has practised ever since. A first class character. AL had asked me about Ger. No knowledge of him, and nor has Eddie (with whom I stayed during the S'bosch do.

We go to SA for our winter 'cure' on 19 Nov. Back in March. Will you be among us here or there?

Randolph

Dear Randolph,

Adrian just got a note from someone called Dr Ralph Ger (in notes I have him as possibly the NCL doctor) saying he had been picked up in 64 and then released because his name found in ALs flat when he was picked up (impossible). Does his name ring a bell?

I thpught Bill H was the Dr? Is so could I get his email address--Id like to ask him if I could make this public in a footnote in the article.

Advise on this please

Cheers

Magnus
