

PC170119/123

14th November, 1962.

Dear M,

We have had word from Eric and Albert's other friends in Johannesburg that they have had no word from him and that there is no cooperation. In particular they are needing money. Can you advise me of the position and let me know if there is any basis for their letters to us. I would very much welcome your general assessment on this front having regard to the developments of the last month. As you know I still keep in touch with our benefactors who are interested in our progress. If Eric is short on maintenance will you get in touch with him unless there is some good reason why he should not. Incidentally Heath has agreed to see a deputation about benefits to South Africa under the Common Market next Wednesday the 21st.

yours,

J. John Lang
