Dear Alan,

I have just read Kontakion. It moved me beyond words as a testament of love, a chronicle of suffering, and an article of faith.

From another pen it might have been embarrassing. From yours it was warm, human, honest, and delicate. Above all, it brought Dorrie vividly to life.

My heart ached for all you have gone through, and I am more than ever glad that you have emerged from that black tunnel, to life, companionship, and creativity.

Love to you both,
