Dear Mr Paton,

Dr Davey, who is away from London on the Society's business at present, has asked me to tell you that we have had the original letters etc in connection with the life of Archbishop Clayton photocopied, and a set of them is now on its way to you.

Dr Davey is very interested indeed in the possibility of our being able to publish this book and will be most grateful if, when you have thought it out, you will send him a brief note about the way in which you think it will shape, at which stage he would hope to be able to discuss a contract etc. with you. Of course, if you are going to be in this country in the nearer future, and could discuss the project with him personally, he would be delighted.

Yours sincerely,

*E. M. Lawrie*
