My dear Alan,

I have seen a copy of the S.P.C.K. letter to you following on my contact with them. I suppose really that this is the only way they can handle it, for they just haven't the resources to send anyone from here. I only hope their local man is good.

I certainly do want to see the book as soon as may be, and I would be able to make sure that Michael Scott sees it also. I do hope S.P.C.K. will be sensible about it.

Yours affectionately,

Trevor S
