February 2, 1967.

My dear Alan,

I was delighted to get your letter of the 29th December and to know that you were to write the life of Geoffrey Clayton. I only hope that you really will be able to get hold of all the material you will need. Certainly I will help in any way I can for there is no biography that I more wish to see published, and no pen will do it better than yours.

We had staying with us this week Dr. and Mrs. Kenneth Brown from St. Louis, and they said they had seen something of you when they were in South Africa. They also said how very sad they were to find Dorrie in such poor health. I am so deeply sorry about this and do realise what a worry and sorrow it must be to you, and I will try to keep her very specially in my prayers. Please give her my best love.

Every blessing as always,

Yours most affectionately,

+ Trevor
