19th September, 1968

My dear Mr Paton,

Our good friend, The Rev. Arthur Blaxall, writes :

"In the course of my quest undertaken on behalf of Alan Paton, I visited Chesterfield, and found that the parishioners had put a brass into the sanctuary floor, so I had it photographed. It occurs to me that you may care to have a copy in the office, so enclose one therewith"

We should like (if our printers can manage a good block) to reproduce this brass in the February issue of CAPE TO ZAMBEZI.

... we might even give your forthcoming book a preliminary boost on the strength of it !

I hope all goes as well as possible with you.

Yours very sincerely,

RT. REV. JOHN BOYS  
Provincial Commissary

Mr Alan Paton,  
23, Lynton Rd., Kloof, Natal.
