Dear Mr. Paton,

Many thanks for your letter. I assure you there is no necessity for your apology.

I will do as you suggest and get in touch with Um Afrika immediately. I hope there will be as little difficulty as you think. There is one part of my letter which you did not answer. I refer to the possibility of serialising your book in English as well as Zulu. I attach great importance to this as you will appreciate that Zulu will have no meaning to the inhabitants of Nigeria or Kikuyuland. When you have time please let me know how to set about acquiring such rights should you be willing to let me have them.

Hope all is going well with the film. I would very much like to meet you on your next visit to Johannesburg.

Sincerely,

*B. B. Gunn*
