Dear Mrs. Nixon,

I have just had a letter from Charles Scribner's Sons in which they write as follows:-

"French rights, November 22 1948, had letter from Albin Michel in Paris saying interested in doing the book There and for us to quote terms".

I have now written to Professor Herisson telling him that the rights are disposed of, but I am writing to you to make a suggestion (which has no authority whatever but which I am prompted to make by your warm letter of September 18) that you yourself might write to Albin Michel and give them your qualifications to make an adequate translation.

Yours sincerely,
