Dear Mr. & Mrs. Paton:

Here are the cuttings from our local press as regards CRY, THE BELOVED COUNTRY. As Dan Moody's secretary and one of the cast of the play I want to express my thanks to you for allowing us to use your novel. It was deeply moving when thinking of South Africa today and also of the world right around us. When we visit in the local jail we meet the same needs and one knows that the only final solution is the Kingdom. For now we will carry this burden more in focus in our minds and hearts since we worked on this play.

Warm greetings and thanks again.

Kathleen King
