18th November, 1953.

Dear Dr. Herriott,

It would have given me great pleasure to have accepted the honour of your invitation for July of next year and I am certainly hoping to attend the World Council of Churches Conference in August, but I have promised to take my family to Europe before then. I have done so much travelling without them that I feel I must carry out this pleasure and obligation, especially as I must leave them again in August to go to Chicago.

Greatly regretting,

I am,

Yours sincerely,
