23 Lynton Road,  
KLOOF,  
Natal.

2nd June, 1964.

Dear David,

This letter is in reply to your two letters of May 4 and your letters of May 8, 13, and 22.

1. Agreed, the Scrappie story is out.
2. The dedication will be simply - To Peter Brown.
3. The caption to the first photograph could be either "Bull and Hofmeyr" at Camp", or Hofmeyr and Bull at Camp". Would you please check this?
4. Hofmeyr in a Group at Camp.
5. I apologise about the Box number.
6. Thanks for copy of your letter to Scribner,
7. I have also enjoyed our long series of discussions.
8. I am still waiting to hear what you think about chapter titles.
9. Quite by chance I read that "Symbiosis" means the living together of dissimilar organisms. I would like you to think this over carefully. I have always used symbiosis as the mere living together, and I do not think the idea of dissimilarity is contained in the word, i.e. in the Greek. Perhaps the idea of dissimilarity is implicit only when one uses the word biologically. Chambers says "a partnership between organisms of different kinds. I must leave it to you.
10. Don't forget that you think there should be an extra paragraph added in chapter XXIV, giving some kind of estimate of HOFFIE as Finance Minister. I shall be ready to do this when the time comes.

I am sending to you photographs from Babu King sent through the Oxford University Press, Oxford. You will see that these are not very good. If you pick a group it should be No 4. If you want King himself, it could be No 6, and there is a good one of HOFFIE, No 5. No 1 is the old Club, but it is a bit faded. I am afraid they are not as good as you wanted, but one could hardly expect it after all these years.

Kindest regards from us both.

Yours sincerely,
