Kloof,  
NATAL.

Dear Alan,

Sorry about all the mix up. I can only plead personal frailty: I am finding things a little better since we got our new bookkeeper, but she is not yet fully on top of her job and at times I simply don't cope.

I am afraid that I was very tired when we spoke at Peter Hey's but am sure that I must have said that we would pay 12% of the nett profits, rather than the percentage of gross. You can take 12% of the nett profits as being the amount that we will pay to you.

I undertake that by next Thursday you will have received royalty statements for all the centres, excepting that I cannot guarantee that I will have received the figures from Cape Town, and there may be some delay with Maritzburg on account of Richard Fowler's trouble.

The reports from Kimberley are encouraging and I just hope that the performances today and tomorrow are good.

With best wishes.
