LONDON W1.

Dear Sir Alexander,

Thank you for your cable of September 28 and for your letter of the same date.

You certainly wrote a very cordial letter to Mr. Stern and he ought to be delighted with it.

I am looking forward to meeting you at last and wonder if you could tell me a little more exactly when you expect to be in South Africa. At the moment we are living at Anerley, a small place some eightymiles from Durban and about five hundred miles from Johannesburg. We had already made plans to go to Johannesburg on November 4 and to stay there for some four days. These four days are fairly well booked up, but we would be delighted to come earlier or to stay later if that would give us the opportunity of meeting you. If you could therefore give us some rough idea of your plans we shall be able to make ours accordingly.

Yours sincerely,
