

8th Sept, 1969

Dear Doctor Merson,

You will probably recall that you X-rayed me on Saturday morning of the 30th August, 1969 at St. Aidan's Hospital. - (I.V.P.)

Sothy, (Dr. Dornail) my quack has just informed me that you do not propose to charge me for said X-rays.

Dr. Merson is a lonely life, isolated from friends & family. The bursar we get & has always received for his services to his fellow man. But it

makes a life of sorts when now & again this isolation is shattered.

Your act has done this for me. I thank you ever so much humbly.

Say I value your act greatly.

Dr. Merson has been asked to operate on me on Friday 12/9/69. pro.

Amicus. I am overwhelmed by all this, and it has pushed my innate fear for operations into the back ground.

I am hoping to be an attorney next year, the exams & affairs will be of service to you - if I don't -

shall be happy to return the favour you have done me, if ever you need me to. I shall be willing.

Sincerely
Thyllis Rindoo
