My dear List,

I saw your letter the
other day - Many thanks. My
cousin P has an automatic car -
which I've not seen - she gets
driven about - but has not taken
her licence out - the rascal. You
know a car is an absolutely
essential. Albert has got himself one.
It takes ages to get from one place
to another. I've been meaning to
go down to Merebank to see Doornik's
wife - but I cannot travel by bus
& I have to await someone's generosity.
But now that I am free of the exams
I must do so very soon. I wish
I played the jack-pot more often -
then perhaps I might strike it
fucky -
I work for Don Kali, an ex
Unity guy. Wonderful Chaps

these are. Their talk & their
actions are poles apart. They live
in a world all their own -
58
enjoying their so-called 'poverty'
& blaming all their shortfalls
on all & sundry.

We have 2 African Advocates
Ababalala & Skewing at the Natal
Bar. Gutwala was murdered
a little while ago - I don't
know if there are others. But it is
lovely to see this - they have to work
though to prove themselves - It is queer
but they represent the lot of us
Blacks when they appear in the
forums of our courts. With practice
of course they will be as good
as any.

Are you studying? Did you
get the lally? Keep well -
I am not visiting Nd this year
If I do next year - when my
barn ends I shall visit you.

Love
Phyllis
