My dear Malcolm,

I am sending you certificates of Anthony. He was at Durfloop University last year & when the University closed down - he had nowhere to go. He's a sensitive lad, great aptitude for music - but for the horrible business of apartheid & the monsters it creates - this child would be creating beauty in art music etc - He's a gentle human being.

I wonder if you can assist him to get a scholarship to University in the U.K.

I shall be most grateful for any help you can give to Tony.
