My dear Sheila & Nat,

How are you two?

Had a letter - original from Mum - Copy to Rago ma - please confirm she's had it & give her my love.

How is Helen? It's freezing here - I wonder how Barbara is? Congratulate Horst & Bosman. How was this possible?

I don't mind if you don't write to me - but please keep regular with Mum - she is so anxious & I can understand her -

Have you had anyone to share the house. Fats is in London - for a holiday - but I have an idea that she does not plan to return. We shall have to wait. Anyway the

education here is described as follows by a teacher who taught under the Natal Education Dept - then Bantu Ed. Std 6 under Native Education was equal to Std 6 under Bantu Ed - but here the Std is lower - All our

children are top of the form - keen debaters - Locals fear us

The poverty here is grotesque - we curl up & go to sleep to solve our problems.

So much potential so little endeavour.

How's Rene, Kamla. Do write - think of you so much

Love you

Rage.
