Dear Phillis,

I received your long and (for me) difficult letter....but after one hour I finish to read. It is nice and I presented to my friend in Italy. They don't believe that it is possible this. I explained the situation in S. Africa, the Apartheid, and in the end they accepted that all is possible. I love you for your courage, ... and my friend also estimates (considers) your life...

I find difficult to ~~right~~^{write} in English...but you are clever!!!! No problem. Maybe Sarah explains better my ideas...or RHONDA. I hope that Rhonda came back to Lesotho.

She has many attention for you. She is very friendly!!! very, very... (Italian expression)...

How are you now? Did you finish your trouble? And your right ear? I hope all right.

You wrote that: "The struggle is our lives too"; wonderful! I also take part in your struggle and, maybe, I will go back to Mozambique or Lesotho...

Anyway, in all places where I will stay I will participate to realize a good world.

The Struggle continues for you and for me. In Italy all are afraid about the situation in Africa, and all invite me to renounce to fight against the enemy. They don't understand the people's situation. Always is so. Always few people risk in the life. If the courageous were many....

Dear Phillis, good luck for you and for your friends.

Many greetings for you, *haukraw, Ronda* ----- all friends,
love *SARAS* -----

Domenico

Osao!
