

9/2

Dear Sukhthi,

Its just past eleven o'clock. I have just finished some outstanding work at the office. If I dont do this letter here and now I shell never.

I hope by now you have seen a doctor and are well.

I hope to be with you on Saturday the 4/3/78. There will also be a surprise I think. Trevor Rabin's record has just been released. By the time I come I shall either record or tape. *have*

Lets hope the flat comes through. I know that the present place is not as good as San Bantille. Both Mummy and you must feel this everyday. But in a little while things should turn out better.

Take care of Mummy. She needs you as much as you need her. She cares for you far more than she shows and I think I can say the same for myself. Try to please her when you can and remember that most of the things you do and will do she has already done. So its only natural that she knows better. You can benefit from her guidance and experience.

*Stay* well,

Love,

*Bas*
