

Dear Brigitte

3/9/81

I have been thinking of you & wondering⁸⁷ why there has been no news - Are you well?

We are freezing here in some pretty weather conditions - My niece in ETown rang me to say they are so cold - & the winds are devilish - My heart goes out to Rebekah Is. & to all our men here who cannot work & who have no heating devices - At least they have hot water to wash in - I wonder who gave birth to the idea of imprisonment as punishment - African Society had no prisons - it was a colonial export/import.

Now Brigitte Dubs for some reason wants to study in Germany. Don't ask me why - she could get in to East Germany - but she's not keen & I am not going to push her. She is doing her O' levels - will complete in July next year. Is it possible to get her into.

- (1) University
- (2) High School. to prepare for University.

What will be cost to me - or Can a Scholarship be obtained. I am leaving tomorrow & I'm going to ask him to post this to you, when you reply - please do so discreetly.

We love you
Paul
