

P.O. Box 1138,  
Mbabane,  
Swaziland  
9/11/78

My dear Edi, Norman & Helen,

This is to advise that I am here having left Lesotho on the 5/11 in a plane covered with rose petals. Yes there are beautiful people there - despite the cold weather - What a difference is Swaziland, where there is so much green - trees, grass, flowers - birds, animals etc etc.

I live in a little hut with lizard & mosquitos - at first it was frightening - but they mind their business & I mine - except the mosquitos after a belly full of blood from you -

Sukhru has been admitted to Waterford - expensive but until I know whether I can stay here & have some accomodation these plans will remain.

How is your health Edi - you will take care of yourself please.

See you too - take care.

Love  
Paul.
