Del Phyllis.....and do pass this on to Sukhs (and let us know her address).....

A momento of Robin's visit arrived this week much to our delight...a book entitled Birds of India (yes, we know you could write your own book about Birds I Have Known) accompanied by a great letter which detailed his lessons in Indian culture...how not to eat with his left hand etc. We look forward to the more detailed one he promised.

Meanwhile, back at the ranch, Fern is glued to "Bhowani Junction" and whether British officer Rodney Savage will get Anglo-Indian Victoria Jones or not... Chitty, our 8 yr. old neighbor & daughter of the hotel's 'dhobi' washerman, is enthralled with her views of Hyderabad through some borrowed binoculars (as she sits in the prescribed place on our porch), the temperature is, as Elvis proclaimed, rising...94 in the shade now...Robin departure marked the beginning of the heating up!

Your letters have come through....and been much enjoyed as they help us feel even more closely how you are feeling with that neat room....recipes for yummys, news of friends,.....and of Sarah's impending desertion (we are a lousy crew Phyllis, and it's your fault for taking us under your wings!but don't stop the process with those new neophytes.....yes, Sukhs, that's redundant...it happens at my age.) We want to hear more about our long haired priest's gospel education from a Buban....what did he learn.

(but be careful you don't corrupt any IVS monkish sorts, OK!)

Our papers are covering the death of Agget in detention.what do you know about him? And here we learn of torture, sexual abusing, and deaths of prisoners under 15 yrs. who don't even have charges brought against them... and all this happens here long after Independence...can it be avoided in a free South Africa? Humanity doesn't seem to be very humane, eh?

What's this about Ronnie's heart-attack? Send him our love. We've lost all our Durban addresses..... How is he now?

We continue to 'hold negotiations' with Indtravels though no definite time schedule is set...target date to leave India is May 27th....straight to London...we'll keep you in touch.

Now Fern has finished...and Victoria went for the boy of her childhood, buffoon though he was....and now we'll have some breakfast....not only am I starved but I am helpless as well!

And our three manifestations of joy have come...the Brazilian children....but they are leaving us next month to go to England...hopefully you can meet them too when we all get together there in a few months. It is time for the monthly measure...on our wall (the hotel will love us when we leave...which we are likely to do in a few months...perhaps to Kerala or another state in India)

Aline is sitting here busily writing to Robin....

And here they must understand for the stupid learn in many ways the same or
 Sukko, how are you? We are waiting for news of you - whereabouts you thought.
 your life - Everything! Much love to you both, Fern & Phyllis

Rumor has it that Julie Christie the movie star is staying here at the Rock Castle... Fern and I have heard of her but wouldn't know her if she walked through the door... which I doubt she will do.... (despite Manoe's hopes!) Hi, Phyllis-

Thanks for the ARC diary, the Gandhi list & newspaper clippings (the latter two an indictment of a sick society) - the ARC stickers will go on our car for those who understand to see -
