Dear Susan, Bob & family, Will you kindly forward the enclosed to Stephanie Urdary - an editor of Southern Africa - in N.Y.

I don't know the address off hand.

The news is not good news especially now that you are manufacturing neutron bombs. - You know the kind that doesn't hurt property - only people.

All your friends that you threatened would get in touch with me - have not - Carolyn was here.

Subs on holiday & working hard at her school work. Her Dad promised her a holiday which did not materialise & she is mad with me.

Stay well for me love you
Lyn.
