My very dear Phyllis & Saks,

Many thanks for your letter my Beti of the 23rd Feb. received a few days ago.

We are very happy to learn that at long last we shall be seeing you some time in June, but are sorry to hear of your ailments. You are as I have so often said, full of courage and nothing will daunt you from the

path you have chosen, and those who have been responsible for your years of suffering will pay the penalty soon - for the writing is on the wall already!

Please convey our warm affection to Sadhan when you see him in Hungary - I remember him as a lad going to School in Durban - and he is now 21! Wish him 'Many Happy Returns' on our behalf. And dear Saks - who used to come to your office every day after school is now 16! 'Many happy returns' to her also on 29th May.

How wonderful to hear you have been asked by friends to go to the U.S.A., that, much to our regret you cannot accept - but I would urge on you not to refuse the Scholarship to Sheffield University until after the medical treatment. I pray that all your afflictions will be cured very soon, and you will be able to accept the offer.

Our phone No. is 647-7371 but you won't find this in the London Directory, as we are in the County of Surrey.

Do ring me as soon as you arrive - what a feast for sore eyes it will be to hug you and Saks again - I had given up hope of ever seeing you again - for I shall be 80 on 13th April, and feel my days are numbered, but I have had a good innings and have seen something of the world during my frequent travels, and I shall ~~die~~ die happy.

Love and More when we meet -

Ever Kaka.
