

My dear Myra & Frank,

I wrote to you when I arrived here - & waited for a reply - I presumed you thought it unsafe to reply - I heard you were in hospital? What was the story? Please let me know.

Where are you living? Working? It must have been lovely having the Caswells down

I am sure you had some tea party on a holiday - the winters are pretty cold - but the summers at the holiday home are warm - Also if during the time you come, I give a home you'll be able to live with me.

High things are awful - but worse - only better. Send me some photographs of you - I've sent me a beauty of herself - Yes I thought you'd think it strange -

Are your CT problems solved? I just had a letter from Sukh. She is well in Punjab - My 2 books are in Europe & are well - What a scattered lot we are -

Love & miss you all
