Dear Phyllis,

Thank you very much for the newspaper cutting which arrived today. The photo is good, after all the other pictures the guy had taken in front of the book shelves. How are you at present, still the same? Do you get on with the book?

About a week ago, I returned safely to Germany, and everybody in the family was glad that we were reunited again. After I had left Durban, I had a good time in Jo'burg, spending three days in various townships, meeting a good number of interesting people. I also could meet Indres on two occasions. It was nice meeting each other again, even though time was too short.

Thank you once again for the time we could stay and share with you, as a family, and equally I myself, when I returned to Durban for my brief visit. It was so good to come back, even though time was so limited. In the meantime, life has come back to normal again with us. The children got their school reports last week (half year). They all did fairly well. All of them like Margarete look forward to a few off days next week because of the Carneval.

Special greetings to Willie and Betty, likewise to the Totlar family, and also to your sister Regina and her family.

As much as possible, we follow events in S.A. . How long will the "FA" continue to play their games? Here, many people watch developments with great interest. More monitors will be sent before and ~~xx~~ around the elections. Today, I could attend a church meeting on S.A. on national level, in Frankfurt.

Keep well. Much love from Margarete, Dorothee, Christoph and Samia! Dorothee often speaks of her experiences in S.A. .

Love

Berhard
