29 November 1991

My Dear Phyllis,

It is a long time since we last had an occasion to meet and confer. I sincerely hope that you are still in good health and coping with the demands placed on all of us the returnees.

Thanks a million times for the flowers and encouraging words you sent to me when I was recently in hospital. I was most thrilled, and I am happy to inform you that I am now out of hospital and back at work.

You are always in my thoughts.

Merry Christmas and Happy New Year.

O.R. TAMBO

The People Shall Govern!

African National Congress

(south africa)

Office of the President

29th December, 1982.

My dear Comrade Phyllis,

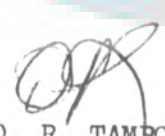

Only this morning was the Album brought to my attention. I wish to congratulate and to thank you and all the comrades involved in the preparation of the Album. For, you have produced and presented to us and our whole movement, a priceless monument to the Maseru Martyrs. The Album and its mighty message will circulate among our people, before it is lodged in our national archives. Well done! And, many thanks.

I regretted having to leave so soon as I did, but there was no alternative. I certainly hoped I would find time to meet all the comrades and many of our friends, to thank them for the admirable work they put into the preparations for the Burial Ceremony - a historic event, an experience I can never forget.

With very best wishes for a year of happiness and political rewards in all your work.

Amandla!

O. R. TAMBO
